OFF TO MANCHURIA.

**PEETERSBURG**, Sept. 1.—One thousand sailors who participated in the mutiny at the port of Libau and in the Black Sea will be transferred to the army and be sent to the Far East to serve in the army of occupation.

GETS RICH CONTRACT.

**LIVERPOOL**, Sept. 1.—It is reported here, through the influence of a German prince, the Hamburg-American Steamship Company has secured large contracts for the building of new steamship prisoners in Japan at \$220 per hr.

## VALUABLE GRANT.

### A Colombian Man Gets Rich Prize.

### Is Given Right to Exploit Crude Rubber on Immense Tract of Land.

### Can be Worked Exclusively for All Natural Products for Many Years.

### An Order Issued for Army Officers to Begin a New Course of Study.

### 1ST DIRECT WIRE TO THE TIMES

### WASHINGTON, Sept. 3.—[Exclusive Dispatch.] Dr. Louis

### Cuervo Marquez, who was sec-

### retary of the Colombian legation here

### in 1899, has been granted by President

### Reyes, of Colombia, a large

### rubber concession.

### According to the terms of

### the agreement reported to the State

### Department by Mr. Snyder, the Ameri-

### can Consul-General in Bogota, the

### sole right for the exploitation of 150,-

### 000 square miles of territory in the

### Amazon country is now held by Dr.

### Marquez and a partner.

### Mr. Snyder reports that Gen. Reyes

### has turned his attention to the hitherto

### little exploited region of Colombia,

### watered by the Amazon and Orinoco

### rivers. Wild and semi-civilized Indians

### have been practically the only

### persons who have gathered rubber and

### they have sold it for the most part

### to the Venezuelan and Brazilian trad-

### ers, so that Colombia has never bene-

### fited from the commerce.

### The concession obtained by Dr. Mar-

### quez will run for twenty-five years,

### it gives 36,000 acres in perpetual owner-

### ship in any region that may be planted

### or cultivated within that time, and a

### monopoly of two great rivers and the

## VETERANS IN GRAND CAMP.

Annual Session Begins Today at Denver.

Five Comrades Desire to be Commander.

Many Amendments to Laws to be Proposed.

BY THE ASSOCIATED PRESS-P.M.

DENVER, Sept. 3.—The thirty-ninth annual encampment of the Grand Army of the Republic will begin in this city tomorrow. The city is crowded with gaudily and heavily-loaded trains are arriving at the Union station from all directions. In order to facilitate the handling of passenger trains the Santa Fe has ordered all freight trains annulled for the next twenty-four hours. The travel on this line is exceedingly heavy. Other roads where traffic is heavy are considered the admissibility of taking similar action.

Members of the local Executive Committee persist in their belief that the coming encampment will be the largest in the history of the organization.

At headquarters and in the lobbies of the hotel already is heard the discussion of the election of officers, and the place of the next meeting.

There are five candidates for the office of Commander-in-Chief, namely, Corp. James T. Tracy, of New York, Robert Brown of Ohio, Col. Robert of New Jersey, ex-Congressman Charles Burton of Mississippi, and Gen. George Stone of California.

Our chief interest in the race for the 1906 meeting place. They are Chattanooga, Tenn.; Columbus, O.; Minneapolis, and Buffalo.

The election, giving the office of Senior Vice-Commander to the city entertaining the encampment has brought two candidates for that position into the race from the West. Gov. George W. Cook, chairman of the local encampment Executive Committee, and U. S. Rep. M. B. Miller.

One of the important business to be considered by the encampment in its secret sessions, which begin on Thursday morning, will be proposed changes in the constitution of the organization to the Congressional Committee.

The latter will be asked to endeavor to have the states pass a new service pension bill that will not be limited to

one proposal is to pension veterans of the Civil War, whether injured or not, on a per diem basis, that is to say, a certain amount for each day of service.

There is a proposition under consideration to change the constitution so as to provide that the encampment will have a patriotic instructor. Each post will have an instructor of this kind, whose duty it will be to officiate in the public schools. A post postmaster, post department official, to be created, will have supervision of the post instructors and a national office will be in existence to handle the work of them.

Another proposed constitutional amendment is one changing the ratio of representation in the national encampment, from one representative for 750 members to one for every 500 members, and still another proposed to make the national encampment a permanent members for twelve months when two months notification has been given.

Leaders are urging their comrades to work to get the more than 300,000 veterans who are not G.A.R. members, to join. In this way they assert the great strength of the organization through mortality can be met for the present.

## SOLDIERS IN WRECK.

BY THE ASSOCIATED PRESS-P.M.

OYSTER BAY, Sept. 3.—President Roosevelt today received at 11:40 a.m. from the Emperor of Japan a wire from his "disinterested and unremitting efforts in the interests of peace and humanity," and an expression of the Japanese Emperor's "grateful appreciation of the distinguished part" the President has taken in the peace conference in the Far East.

The cablegram, which was received from the Emperor personally, follows:

## MUTSUHITO.

BY THE ASSOCIATED PRESS-P.M.

OYSTER BAY, Sept. 3.—The first section of Santa Fe passenger train No. 8, carrying hundreds of G.A.R. excursionists, was derailed one mile east of Boone, about 2:35 this afternoon. Eight persons were injured. The two most seriously hurt were brought to Pueblo and taken to St. Mary's Hospital. They are: Mrs. Mary H. Barrie, Lawrence, Kan., head and spine hurt; serious Mrs. Martha E. Woodward, Lawrence, Kan., head badly cut.

The train, which had a number of engine No. 585 leaving the track. The train was going at such a rate of speed that it was impossible to stop before the two engines and coach were overturned.

Wrecking trains were sent out from La Junta and Pueblo. The Santa Fe train was brought into Pueblo over the Missouri Pacific tracks.

## COMMISSIONERS MEET.

KARLSTAD (Sweden) Sept. 2.—The Norwegian commissioners, who are meeting here with the Swedish commissioners, to discuss the question of the division of the Far East, were reinforced by the chief State advocate, Oscar Kjerschow. By invitation of the Swedish government the commissioners of both countries dined together yesterday.

The Commercial Cable Company at New York is advised by Hongkong that the Pernambuco cable is closed to all but government traffic.

HONORS FOR M. WITTE.

Archbishop of Russian Church in America Starts to Meet Czar's Statesmen.

BY DIRECT WIRE TO THE TIMES:

DENVER (Colo.) Sept. 2.—[Exclusive Dispatch.] Attired in a purple robe which reached his feet; only partly covered by a black cloak and surrounded by a retinue of attendants, Archbishop Tikhon of the Russian Orthodox Church of America, descended from his train here last evening, and was met by several prominent persons of Colorado. The entire party, after the custom of their church, embraced and kissed each other full upon the lips. Archbishop Tikhon, with headquarters at San Francisco, is on his way to New York, where he will meet M. Witte, the Russian plenipotentiary. He will preach at the Russian Church in Loveland, Colo., tomorrow morning.

## PEACE.

(Continued from First page.)

sian government has had innumerable positions on this subject. Several of them are from Americans who held concessions in Southern Sakhalin. While a full synopsis of the treaty will be cabled to the governments of the two countries the actual text will not be known at Tokio or St. Petersburg until the plenipotentiaries arrive.

It is expected that to cable such a long document textually would make it possible for an expert later, when the text becomes public, to work out the government cipher. Mr. Witte will personally convey the text to St. Petersburg and Baron Komura to Tokio. This is the reason why both are anxious to get home as soon as possible as the treaty does not go into force until the two Emperors have signed it. To avoid the delay of exchange of documents which would involve six weeks at least, the notification of the final approval by the Emperors will be made through neutrals, the United States in the case of Japan and France in the case of Russia. The text of the treaty will not be made public at Portsmouth. If it ever is, it will be after it has received the approval of the two Emperors. Mr. Witte when questioned upon this subject by the Associated Press, remarked laughingly:

"You are at liberty to announce both in Europe and in America that we are willing to make the Treaty of Portsmouth public as soon as the new Anglo-Japanese treaty is given to the world."

NO REPORTERS ALLOWED.

The signing of the treaty is to be a very exclusive affair. The Japanese objected to the presence of any newspaper correspondents or photographers and it has therefore been decided that besides the plenipotentiaries and reporters they shall be present only Assistant Secretary Poole, representing the President, Gov. McLane of New Hampshire, the Mayor of Portsmouth, Admiral Meade, and the commanders of any United States ships in the harbor, in this case only Capt. Winslow of the *Massachusetts*.

Mr. Poole has procured four ordinary quills, with one of which each of the plenipotentiaries will sign.

Baron Komura and Mr. Takahira, through Mr. Sato, have invited the newspaper correspondents and guests of the hotel and the United States government officials here to meet them in their quarters tomorrow night for an informal reception.

MIKADO THANKS TEDDY.

BY THE ASSOCIATED PRESS-P.M.

OYSTER BAY, Sept. 3.—President Roosevelt today received at 11:40 a.m. from the Emperor of Japan a wire from his "disinterested and unremitting efforts in the interests of peace and humanity," and an expression of the Japanese Emperor's "grateful appreciation of the distinguished part" the President has taken in the peace conference in the Far East.

The cablegram, which was received from the Emperor personally, follows:

"TOKIO, Sept. 3.—The President: I have received with gratification your message of congratulations conveyed through our plenipotentiaries and thank you warmly for it. To your disinterested and unremitting efforts in the interests of peace and humanity, which are so great, I attach the high value which is their true worth and assure you of my grateful appreciation of the distinguished part" the President has taken in the peace conference in the Far East.

## BREAK RECORD FOR SPEEDING.

Santa Barbarans Clip Off Thirty-one Seconds.

Decey and "Times" Man Come Down A-flying.

Mile-a-Minute Auto Gait from Channel City.

Clipping thirty-one seconds from the coast record by automobile from Santa Barbara to Los Angeles, the most remarkable running by Wm. Dewey, was yesterday morning in one of the first fast runs ever made over the coast route between those cities.

Dewey, with Times correspondent W. A. Hartlett of the Channel City, made the run in exactly four hours and 4

Over the Little Casitas Pass Dewey drove his machine almost without checking speed, and fled like a hunted thing down into the valley-only to come back again and the long tug up the side of the Big Casitas.

From the summit of the pass the panoramic view of the valley below was inspiring. In the distant canyons and gullies from the mountain tops clung along the hillsides. Only a fleeting glance of the beauties was given as the machine with reckless speed shot down toward the Ventura River.

Cold chills chased themselves up and down the spine of Passenger Hartlett as the big red devil flew around the curve at break-neck speed. The risk was danger, but the two were willing to take more than a reasonable chance.

"BOUT A MILE A MINUTE.

Bumping through the lowlands of the Ventura River, fording the stream in several places and then shooting out onto a level stretch of road, was the scene of the next half hour. Then, with a wide level stretch before them, the run into Ventura was made in seven minutes.

Breathing space was denied the panting monster over at Ventura, and at 9:30 o'clock the echoes of the sleepy little town were awoken by the roar of the flying Poppo. The two dust-begrimed but happy auto pilgrims

sounding far as a warning to approaching teams.

Mr. Dewey declares the Santa Barbara run is rapidly becoming the most popular coast run in the country. There are many enthusiasts in the Channel City now preparing to break—if they can—the record trip to Los Angeles and return.

## CLEANING UP AT PANAMA.

Sanitary Forces Being Put to Work Vigorously.

The Entire City to be Thoroughly Fumigated.

The Jungles Cleaned and Vegetables Planted.

BY GEORGE V. STEEP.

SPECIAL CORRESPONDENCE OF THE TIMES.

AMERICAN LEGATION (Panama)

AUG. 31.—Within the past few days all work on the Panama Canal has practically ceased, as far as the department of construction is concerned, and the entire efforts of the force of men in the zone will be directed to the perfection of sanitary conditions. Two hundred engineers and men building construction employes have been brought in from the United States—and that is vegetables. Meat forms the main diet of the Americans on the Isthmus, for the sole reason that it is the result of these clearings in place of the use of other foods. The result to health conditions of people given a clear meat diet in a climate of tropic humidity needs no explanation, and the result of the reduction of meat in Panama is reduced, the better it will be for the American employee.

Another measure recently taken is the abolition of quarters for the laborers, and sent back to New York, their salaries continuing until the date of arrival of the steamer at its destination. The steam shovels are being housed, and the locomotives and long trains of cars are sidetracked. And this sudden stop means but one thing—that the government has come to the realization that the canal cannot be completed without a great improvement in sanitary conditions.

The sanitary force has been retained, and the laborers who have been used in the work of construction have been transferred to the supervisor of quarters and administration for the work of sanitation actively, helping the work of draining and fumigating which will be done, and adequate quarters will be erected to accommodate the entire force.

Since the United States undertook the task of digging the canal there has been a continual struggle to keep the death rate below that of the French, and the result has been to take measures calculated to lower the rate until it will not exceed that of the cities in the States. The work-wards and severs dormitories, formerly in use, have been retained, and each pug has been assigned a room of its own. The result of this is that the entire force of the clerical force will have assumed large and promising proportions, and the work of completing the sewerage system will be pushed with unusual rapidity. The Rio Grande, which is the only river that will be retained, will be tripled in size by the erection of retaining walls further up stream. This will give a total capacity of 100,000,000 cubic feet of water, which will be sufficient to last the territory between Culebra and the Pacific Coast during the entire dry season. This is a great step in the direction of the elimination of disease as it means the end to all filth-accumulation during the dry months. In past years, when there was no other water supply than that derived from the Rio Grande, the first filth of the city was allowed to accumulate in the streets, gutters and yards, and when the rain came again the entire putrefaction was floated on the surface of the water, giving it a host of germs to the air and incidentally to the population.

But when the next dry season comes in an entire change will be found.

By that time all of the streets will be paved from curb to curb, and there will be a water plug on every corner, from which the road can be washed.

The water will be taken from the streams which run through the city, and when the rain comes again the entire putrefaction will be washed away.

in design and with promise  
one of the handsomest real  
estate developments in  
the city. The houses are being  
erected in the style of bungalow  
and the cost is \$4500 per room.  
The houses will have rooms  
with bath, kitchen, etc.  
There will be two bedrooms  
and a large roof garden.  
Concrete will be used, with  
reinforced steel for the columns  
and beams. The houses will be  
erected in the neighborhood of  
Rev. J. H. Cooper, pastor of Park  
Congregational Church, returned on  
Wednesday from his vacation, and on  
Friday evening, the 22nd, will be  
presented to the congregation.  
W. C. Patterson, president of the Los  
Angeles National Bank, and family, of  
No. 1450 South Flower street, are en-  
joying the ocean breezes at Terminal  
Island.

THE NORTHWEST.

HIGHLAND PARK.

Work is progressing on the public  
playground being laid out south of  
Echo Park. The fill is almost com-  
pleted and thousands of tons of dirt  
have been placed in the big hole, mak-  
ing a fine improvement for this section  
of the city. The work of arranging  
the grounds for the children's needs  
will begin within a few weeks. As  
ready, in consequence of the proximity  
of the big playground, several homes  
in the neighborhood have been  
erected.Rev. J. H. Cooper, pastor of Park  
Congregational Church, returned on  
Wednesday from his vacation, and on  
Friday evening, the 22nd, will be  
presented to the congregation.Mrs. Elizabeth Dudley and Allen G.  
Lindenbeck were married on Saturday  
evening at the home of the bride's  
parents on the corner of Fremont avenue  
and Third street. W. H. Dutton was best  
man and Mrs. W. W. Curtis was matron.The reception was tendered the  
couple by the students.

## AT THE CITY'S GATES.

UNIVERSITY.

WORK is being rushed on the addi-  
tions to the University of South-  
ern California, and every effort  
is being made to have the rooms ready  
for occupancy by the end of this  
month. The front of the original build-  
ing is being changed to conform to the other buildings  
and the whole will be treated with  
plaster, making a handsome exterior.  
The chapter house has been greatly en-  
larged, and a large bay window will  
adorn the front, opening directly into  
the chapter house. The offices of the president  
will be off the loggia in front, and will be spacious.  
The whole of the building will be  
finished in white, excepting at  
the rear of the main structure. The  
interior finish will be in light stain,  
and all the rooms will be retiled. A  
dozen of men has been employed this  
week on the campus, cleaning off  
the woods and the ground, and  
improvements to be made as soon as  
possible.

MISS ALLEN G. MYGRANT.

and Mrs. Wadsworth will leave on  
Tuesday for Bellevue, Neb., where Dr.  
Wadsworth, now president of Bel-  
levue College.

Daniel Hammack, son of Mr. and  
Mrs. D. M. Hammack of No. 144 South  
Avenue, is to enter Princeton University  
this week, and now the boy will enter  
Occidental College and graduate in  
June. He will visit friends in  
Hastings-on-Hudson, Princeton.

Property along the Arroyo Seco is  
in great demand and several choice  
building sites have changed hands  
during the past week. One building  
is said to have purchased twelve acres,  
which he will improve and beautify for  
a home.

Rev. M. Hatch, a former resident of  
Long Beach, has removed to Highland  
Park with his family. His daughter  
will enter Occidental College this fall.  
Rev. Hatch comes originally from Mc-  
Kinley Park, and will make his home  
in Southern California.

There was an unfounded rumor the  
latter part of the week to the effect  
that the hill property between 12th and  
Avenues 50 and 61, had been sold to a  
syndicate for \$80,000. The hill, according  
to the report, will be improved  
within a year.

Lots in the New York tract have  
been sold by William Elsey & Co. to  
Mr. Simpson, who has commenced to  
build a home, and to H. M. Pierce and  
Mrs. Pierce.

E. W. Blake will build a residence  
at No. 129 East Avenue 50 to cost  
\$6000.

Mary A. Anderson is building  
a two-story, fifteen-room house at No.  
5225 Pasadena avenue to cost \$5000.

PICO HEIGHTS.

Arc lights are being installed at several  
of the dark corners throughout  
this section of the city and a song-  
feast will be supplied. The Pico Heights  
Commerce Club is to meet to talk  
about the placing of the lights. They  
will undertake the engineering of several  
other improvements for Pico

Hights. Miss Leah Sturges and her brother,  
Dale Sturges, of No. 2622 West Pico  
street, have gone to Mt. Wilson for  
a small party of friends to spend a few  
days there.

Mrs. A. L. Campbell, daughter of  
Mr. and Mrs. M. V. Huff, of No. 1424  
Vermont avenue, departed last night  
for her home in New Haven, Conn., Mrs.  
Campbell with her son, Lorin, has  
spent the past few months with her  
parents.

THE SOUTHWEST.

An effort will be made to give several  
of the streets in the extreme  
Southwest graded curbs and ledges.  
The sidewalks, the farthest leading off  
West Adams street are in great need of  
improvement. Western avenue is  
soon to be graded, and the large number  
of fine residences and the large  
number of fine neighborhoods have made  
necessary the other work.

Gen. A. J. Sampson and family of  
No. 1300 West Tenth street, were  
recently returning from a trip to the  
San Gabriel Cañon, because of an  
accident to their little girl, who sus-  
tained a broken arm. They returned  
home to their mother, Rev. H. H.  
Edwards, B.D., gave an interesting  
talk on the national life of the  
war—the larger cities of the  
empire. Rev. Samuel Schwartz  
of the several parishes in  
Mirando Land, and has with him,  
who will study the conditions  
of the people in America.

Rev. H. K. Walker returned on  
Tuesday evening from Catalina, where  
he has spent a month with his family  
on Sunday he preached at Immanuel  
Protestant Church.

Mrs. James Edwards and daughter  
Vesta have returned from Coronado,  
where they have been spending a few  
months and will be home to friends  
at No. 1300 West Adams street.

Two popular young ladies of the  
younger set will entertain with a  
handkerchief shower in honor of Miss  
Muriel.

The affair will be given on Thurs-  
day evening at the home of Miss  
Hattie Morgan and Marguerite Leis.

The affair will take place at the home  
of the latter on West Eighteenth street  
and the house will be appropriately  
decorated. The young bride-to-be is  
prominent in social and musical circles.

She will marry Mr. Clements of  
the Young Social set.

Mr. and Mrs. William R. Moloney  
have returned from a month's vacation  
at their home in Menlo, Calif.

Mr. and Mrs. Herbert Leslie Harris  
have taken a cottage at No. 22 Ocean  
avenue, Ocean Park, for the month of  
September. Miss Corinne Ross will be  
their guest.

Miss Dorothy Lindsey acted as a page  
to the guests at the door, and  
Adelie Adair in entertainment.

The evening was spent in progress-  
games, for which prizes were

awarded.

## Sporting Doings of a Day—Football—Boxing—Baseball—Fishing.

RECORD-CROWD  
TO SEE FIGHT.

BRITT-NELSON BOUT PROVES A  
BIG DRAWING CARD.

Prospect That Big Pavilion Will be  
Crowded to Its Capacity, Being Now  
Nearly Sold Out—Think Mill Will  
be on the Level Because of "Win-  
ner Take All" Clause.

BY DIRECT WIRE TO THE TIMES  
SAN FRANCISCO, Sept. 3.—[Exclusive  
Dispatch.] The biggest crowd that  
ever saw a Quinceberry battle in California, perhaps the biggest crowd that  
ever gathered at a fight anywhere in the world, will surge through the gates  
of a special opening amphitheater  
near Saturday afternoon down in a  
meadow near Colma. Battling Nelson  
and Jimmy Britt, the two best light-  
weights now before the public, will  
have the main opening contest which  
is scheduled for four-six rounds. It  
will be a bitter battle, which must be

a hot pass with 192. John Hauerwas  
has just returned from the upper Pura  
country, where he has been fighting  
the heat for three weeks, and 192 was  
the best he could do. Dr. M. E. Tuber  
of Riverside strung together 178; Hy  
Pfiffmann, 178; A. Hartmann, 180;  
Charles Goldner, 171; Ed Englehard,  
170; Artie, 185; Frank  
Huchach, 185; Tom Thompson of Ven-  
tura, 181; and C. Black, 180.

There will be some one-day rifle  
tournaments coming off this coun-  
try soon, and the Turners will prob-  
ably show their 192s regularly hereafter  
in practice for them.

CRICKET PRACTICE

Two hours from the Los Angeles  
Cricket Club played a practice match  
yesterday afternoon at Agricultural  
Park, one captained by Pat Higgins,  
the other by H. P. Justice. The Higgins  
team won by a score of 34 to 22.

Higgins was high score with thirty-  
one, and the Turners were out of  
having scored exactly that number in  
his last three times at bat in many  
consecutive games.

Others: H. P. Justice 14; Bar-  
well, 14; Packman, 15; Morris, 14; F.  
O. Jasius, 13.

This afternoon another practice game  
will be played. Saturday afternoon at

Scoring for the second heat.  
Tiverton on the outside.

copy a chapter by itself in the history  
of the prize ring. There is everything  
about the contest to mark it an epoch-  
making event. The intense rivalry be-  
tween the two men, accentuated as it  
has been by months of bitter estrange-  
ment, comes as a positive assurance  
that everything will be above board  
and above the line. The "winner  
take all" provision in the articles  
clause, which will mean that the win-  
ner will receive in the neighborhood of  
\$6,000, coupled to the picture privileges  
of the big amphitheater, will add to the  
attraction.

The sale of seats for the big battle  
opened yesterday, and 80 per cent. of  
the seats were sold. The capacity is  
5,000, of which 1,000 are in box and  
balcony seats. Before yesterday morning's  
sale opened, all of the 500 of the  
seats taken, and a large proportion  
of the 500 still to come were gone. At  
the time the boxes were left, there were  
not more than one-fifth of the amphitheater,  
all of which, it is expected,  
will be taken in a day or two. In fact,  
the very first box of the 500 was sold  
being the largest of any fight held in  
this country.

CARLISLE MEN  
TO PLAY HERE.

SCHOUCKCHUK AND KENNEDY TO  
ENTER SHERMAN.

Creek Eskimo Center and Three  
Years' End at Big Eastern College  
of the Indians Coming to Coast.  
Old Line Back Again, and Plenty  
of Burly Bucks for Players.

Two-creek Carlisle football players  
will adorn the Sherman Indian Insti-  
tute's line-up this fall unless side-  
tracked on route.

Center Schouckchuk, the real Eskimo  
who, in spite of his name, is a real Indian and played and three  
years for Carlisle, are the most impor-  
tant of Coach Kennedy's Indians. The  
other two-thirds of the rest of the new-  
comers at Sherman are being raw mate-  
rial.

Both Schouckchuk and Kennedy are  
from the Creek Indians, and Coach

Hempel expects them to add great  
strength to the Sherman line, which  
at no stage in its history has had  
as much.

Football has begun at the redskin uni-  
versity, and the football practice will  
come on next Monday. Probably there  
will not be over a dozen men on train-  
ing table at the start, but the number  
will increase later on to twenty-  
five.

A squad of sixty big, wiry huskies  
is now returning from a scientific expedi-  
tion into the scorched sagebrush of  
Arizona among the Piutes and rattlers  
after Embry, Bemis, Pierces, but did  
not succeed in capturing any, though  
they have been looking big  
favors for the Sherman squad.

The Haskell Indians, who will play  
Sherman here Christmas Day, were  
not here, but they did not leave  
before agreeing to make the  
trip, though it was necessary

for Hempel to arrange to pit them against  
the Phoenix Indians in Arizona, the  
other two-thirds of the rest of the new-  
comers at Sherman being raw mate-  
rial.

Sherman here Christmas Day, were  
not here, but they did not leave

before agreeing to make the  
trip, though it was necessary

for Hempel to arrange to pit them against

## San Bernardino and Orange.

[NEWS REPORTS FROM TIMES CORRESPONDENTS.]

### WHO'S TRYING TO BURN TOWN?

COTTON EXERCISED BY MANY INCENDIARY FIRES.

Handsome Homes Threatened by Blazing Barns—Mexican, Seeking to Woo Paramour with Carving-knife, Encounters a Neighbor Club and Draws a Broken Head.

COTTON, Sept. 2.—That some person or persons are maliciously setting fire to buildings in the principal residence section of this city, and threatening some of Colton's handsome homes, is accepted as the explanation of the frequent fires which have occurred here in the past week.

Last night a fire destroyed the barn of J. Maloney, in the rear of his fine residence on E street. One horse, a surrey, a light buggy, and a quantity of hay were destroyed.

Maloney's barn and the residence of C. V. Phelps, adjoining, were both on fire a number of times, and had it not been for the excellent force of fire and the good work of the fire department, one of the costliest residence blocks in Colton would have been destroyed.

The origin of the fire, as in the several previous cases, when barns adjoining have burned, is unknown.

Rafaelo Ramus, a Mexican from Aguas Calientes, was arrested here for attempting to kidnap his sweetheart, Estrella, a countrywoman with whom he has been living for a year or more. The woman accused him of attempting to kill her with a carbine. He claims he was merely trying to win back her affection. Romaldo Jacob and Bertha Martinez, neighbors, interfered, and, forming with a club, Ramus was arrested with his captives.

Ramirez, his captives and the residence of Horace Birdsell, manager of the Fullerton Land and Water Company, were destroyed by fire.

Horace Birdsell, manager of the

through windows of his home, shattering the glass. No one was injured. Colton, formerly Southern Pacific, general manager, with headquarters at Colton, who, after a stormy time with the switchman who issued a round-robin against him, has been here since last April, is at Glendale, Ariz., where he is holding down a spot on the board. It is understood that his present position is only temporary, the company having a promotion in store for him.

The local officers are looking for A. A. Greenbaum, a German Jew, wanted for passing bogus checks here, one being received by the Southern Pacific Hotel for \$7. It is said he is also wanted at Los Angeles on similar charges.

Thomas F. Keefe of the Fontanna Company was thrown from his carriage during a drive yesterday while driving in the vicinity of Rialto, and was badly injured. The accident was witnessed by people residing in the neighborhood. The injured and unconscious man was taken to a house, where a doctor attended him. The team continued running until Rialto was reached.

Deputy Sheriff Charles Ward yesterday raided two blind pigs at Orange, taking his prisoners before the justice of the peace there who fined each of the proprietors \$50. The offenders are Italians.

Horace Birdsell, manager of the Fullerton Land and Water Company, was destroyed by fire. The fire started in the rear of the western end of this country's largest water-shaft, Iowa. News of his demise was received today, and shocked the people of Bloomington, which place he left only a few months ago in good health.

When the nerves ache and tremble it means that they are starving. To feed them is to feed them, it is through the blood, the bed of the body, the Williams' Pink Pills.

They are absolutely guaranteed to be free from opiates or other harmful drugs. They are sold at all drug stores, and may be obtained directly from the Dr. Williams Medicines Co., Schausky, N. Y.

### SANTA ANA.

A POSTMASTER'S BRIDE.

SANTA ANA, Sept. 2.—The marriage of Miss Rose Peers of Orange and L. D. Stephenson, assistant postmaster at Fullerton, was solemnized this afternoon at 6 o'clock at the First Christian Church in Orange. The pastor, Rev. Mr. Glover, officiated. The bride was attended by her sisters and the groom by Herbert Huntton of Santa Ana. After a trip to Mt. Lowe, Mr. and Mrs. Stephenson will make their home at Fullerton.

Delegates of the Young People's division of the United Presbyterian Church from Southern California points will assemble here on Sept. 10 and 11 Wednesday for their annual convention. A programme of papers on topics relating to young people's work will be presented. The young people's society will entertain all visitors.

The newly-organized Farmers' and Merchants' Bank expects to open for business here about November 1. The room now occupied by the older undertakers, will be used by the building-house.

Services were resumed at the Congregational and United Presbyterian churches today, after the summer recess. The United Presbyterian church was occupied by the Rev. Mr. Welch of Redlands.

Mr. and Mrs. Hatch of Topaka are guests at the home of Col. Coulter on Van Ness avenue.

Mr. and Mrs. J. A. Finley and Miss Lillian Finch have returned from a trip to the Portland fair.

Mr. and Mrs. R. T. Harris of East Sixth street are home from a trip to San Francisco.

Rev. A. H. Hooker has returned to this city after a month's stay at Newport Beach.

R. H. Johnson, cashier of the Orange County Savings Bank, has returned from a lengthy visit in the north.

### FISTS FLY AND STANDARD PAYS.

#### SUNDAY MORNING FIGHT ENDS IN FINANCIAL COMPROMISE.

But Not Until Warrants of Arrest Spring from Rockefeller's Attempt to Lay Pipe Line Across Lands of the Marre Estate at Avila, in San Luis Obispo County.

BY DIRECT WIRE TO THE TIMES: SAN LUIS OBISPO, Sept. 1.—(Extra Dispatch) Deputy Sheriff's McCadden and Grady and Constable Cook were called to Avila at 9 o'clock this morning by the sheriff, who had received a telegram from the San Joaquin Valley, which advised the amount of the guinea to prevent the cattle from leaving, and then would retire to the cave and await news of the movements of the settlers.

THE CAT AND THE BAG.

A movement to make San Bernardino the orange market, and the center of the entire valley is on foot. The first authentic news of this scheme was learned last night from Kenneth McRae, who points out that with the Redlands, Banning, Rialto and Upland branches of the proposed troupe, it will complete all those communities will be tributary to San Bernardino, and that the time must come quickly when the orange fruit will be packed at San Bernardino instead of at Chicago, Philadelphia, New York and Boston.

McRae declares that the Rialto people intend to make the eastern citrus fruit buyers come to San Bernardino, spend their money at the local hotels, do business through the local banks, and generally rule this community; and all this is announced as a reason why the City Council should issue to Seth Hartley the franchise for a trolley road, which he wants if he can get it, with all the privileges. The matter is likely to be discussed at another mass meeting of citizens before finally being settled.

ECHO OF A FAILURE.

The Redlands Improvement Company, which was formed to take charge of the W. W. O'Neil's of Redlands, brokered by J. W. Liles, filed a suit against H. C. Wyatt to recover \$10,000,77, alleged to be due for rental of the opera house since the opening night many months ago. The complaint alleges that Wyatt has not paid one cent of rental since he took a five-year lease on the house. This suit is another defense to the trouble which has been caused by the opera house proving a financial failure.

COME HOME TO DIE.

J. J. O'Neill, a Santa Fe brakeman, quite prominent in lodge circles here, died yesterday at the home of his mother, Mrs. A. J. Liles, at Rialto. The man, who was born in Mexico, in the Rialto residence at 10:30 in the morning. O'Neill had been employed by the Santa Fe since that road was first built into the city, but failed health compelled him to, at an advanced age, and he sought recovery in Mexico; and the trip proving vain, he returned here to die.

MINOR HAPPENINGS.

Joseph Marti, who resides with his family on the outskirts of Rialto, has complained to the officers of the rockless use of firearms about his premises. Yesterday two bullets were fired

### FEVER'S AFTER EFFECTS

Did Not Disappear Until the Blood Was Renewed by Dr. Williams' Pink Pills.

Typhoid fever is sometimes called se- rous fever. During the course of the fever the nerves are always profoundly disturbed, and when it is over they are left so sensitive that the patient has to be guarded against all excitement. In the tonic treatment then demanded, regard must be paid not only to building up flesh but also to strengthening the nerves. A remedy that will do both, make sound flesh to repair waste and give new vigor to feeble nerves, is the most valuable and most effective.
